CONCORD, N. H., March 1st., 1893.

The Strafford County delegation met this day to hear the report of the special committee appointed to visit the County Farm and investigate the needs of the property there for further fire protection, and to act on the estimates of the present board of commissioners for the expenses of the county for the years 1894 and 1895.

Commissioner Reeve submitted the following as the estimate of the board for each of the years referred to.

Bonds payable	\$10,000
Interest on Bonds and Notes	7,000
Farm Expenses	13,000
Court	12,000
County paupers and soldiers away from Farm	20,000
Jail	4,500
Miscellaneous	4,500
	<hr/>
	\$71,000

Mr. Chase of Somersworth moved that the sum named by Mr. Reeve be raised and appropriated.

Some of the members thought this amount was not sufficient.

Finally on motion of Mr. Kimball of Dover, the sum of \$75,000 was raised for the years 1894 and 1895.

Messrs. Kingman of Madbury and Reeve of Somersworth, were appointed Auditors of the next board of Commissioners.

The special committee at the last meeting to investigate the needs of the farm buildings in reference to fire, submitted the following report, which was accepted, and the County Commissioners were instructed to procure estimates of the probable cost of the improvements and submit them to the delegation as soon as possible.

REPORT OF THE COMMITTEE.

We, the undersigned, a committee appointed from the County delegation to visit the Strafford County Almshouse and to recommend any improvements needed there for the better protection of its inmates against fire, beg leave to submit that we found the County Almshouse in a condition satisfactory to the committee so far as the appropriations of the County Conventions have permitted.

Your committee, having visited the institution, would recommend that the Commissioners be instructed to make the following changes :

1st. That the building be provided with a system of fire escapes.

2nd. That iron shutters be placed on the windows on that portion of the Almshouse which forms the hollow square made by the main building and its two wings.

3rd. That five portable chemical fire extinguishers be located in the building at the discretion of the County Commissioners.

4th. That the Commissioners provide a suitable place for kerosene and other inflammable fluids in some uninhabited building.

5th. That the almshouse be connected by telephone with the Police Station of the City of Dover.

6th. That the hospital be located at the discretion of the commissioners on the first floor of the building.

7th. That there be erected a fire proof boiler house, independent of the main building, provided with boilers and steam pump with sufficient capacity to supply the cooking and laundry departments and for fire purposes, and your committee would recommend that a connection be made with the river for the above purpose, as in their opinion a sufficient water supply for fire purposes can be obtained from no other source, and accordingly recommend it.

8th. That the stand pipes in the corridors of the almshouse be replaced by larger ones.

Report of the County Commissioners.

TO THE CITIZENS OF STRAFFORD COUNTY :

In accordance with Chapter 30, Sec. 1, of the general statutes of the State of New Hampshire, we submit the following report for consideration, also the reports of the Superintendent of the County Farm, County Physician, Chaplain, County Treasurer, Solicitor, Sheriff, Jailor, Clerk of the Supreme Court and Auditors; also a copy of the proceedings of the Strafford County Conventions and delegations herein appended.

FINANCIAL CONDITION OF THE COUNTY.

The report of the Treasurer shows that the net debt of the County Jan. 1st, 1894, was \$124,288.24, showing a decrease since Jan. 1st, 1893, taking into account the permanent improvements at the County Farm, authorized by the County delegation at a meeting held May 4th, 1893, of \$20,764.69.

There was in the hands of the Treasurer Jan. 1, 1894, \$53,306.83.

COUNTY FARM AND ALMSHOUSE.

As regards the crops, they will be found in detail in the Superintendent's report.

Many needed improvements have been made at the Farm, such as shingling the large barn, painting the rooms and corridors which were sadly in need of the same; also the Superintendent's pantry has been rearranged and supplied with a modern ice-chest.

The commissioners can really give you only a report from April 1, 1893, to Dec. 31, 1893 from personal knowledge of the affairs of the County, as their term of office began on the later date; previous to that time, all we can present for your consideration are the accounts of the County for January, February and March, as published in the report.

One of the first duties required of the Commissioners was the selection of a Superintendent and Matron. After consuming considerable time in the matter, engaged the services of Mr. and Mrs. Edward A. Willand, and we feel confident that for industry, kindness and interest for the inmates, they are hard to excel; and we can assure the people of the County that the unfortunates under their charge are suitably provided with everything to make them comfortable, and tenderly cared for in sickness, many of them undoubtedly having a better home than ever before.

One reason for the increase cost of County paupers was by reason of the present board of commissioners being obliged to pay the City of Dover tax which should have been paid in 1892, thereby causing us to pay a double tax in 1893; while we don't think it just for the County to pay any tax, still the bills were properly presented, and *we were obliged to honor them.*

COST OF SUPPORTING PAUPERS AND INDIGENT SOLDIERS OFF THE FARM.

There has been a large increase in the cost of supporting paupers and indigent soldiers off the farm, caused by the general depression of business and an early, cold winter, over that of previous years. We have adhered to the system inaugurated by the previous board, and believe it to be the best thing for the tax-payers of the County, as it shows to them just what the cost is for each town. There has been some

little dissention in our doing the County business in this manner, but, with one exception, we have had an itemized bill for every cent we have paid out, and shall take pleasure in showing them to any or all taxpayers of the County.

The following will show the cost of supporting paupers and indigent soldiers off the farm for the months of February and March, 1893, as per warrants of the previous board, their report being made up to Feb. 1st, 1893.

PERMANENT IMPROVEMENTS.

By vote of the County Convention held May 4th, we were authorized to hire the sum of \$5,000 for improvements at the farm; for the repiping of the Almshouse, new boilers, fire pump, reservoir, coal pocket, hydrants, hose, &c., all pertaining to the better protection against fire, and to the comfort and safety of the inmates.

At the suggestion of the Manufactory located at Gonic, and a member of the County delegation, we sent for and consulted with W. W. Carman of the Carman Thompson Co. at Lewiston, Me.

He gave us plans and estimates which we finally adopted, and we contracted with him to do the work at an expense which appears in the treasurer's report. Their work of repiping the building, furnishing and setting the boiler and pump, was satisfactorily done and is working in the best possible manner, warming the various apartments and making the inmates comfortable, something that has not been done before since the present buildings were built.

The present system consists of a new seventy-five horse power, tubular boiler, the old boiler and a new one of thirty-five horse power placed in a new boiler house, located some sixty feet in the rear (and centrally) of the two wings.

These three boilers are so arranged that either can be used for heating the building independent of the others, and the boiler house being situated lower than the main building, the

water of condensation returns to the boilers by gravity. The amount of heating surface at present is over 4000 square feet, nearly double that of the former system.

In the normal condition, the large boiler is used for heating the building.

The new thirty-five horse power boiler will be used for cooking and laundry purposes, steam being kept in this boiler all the time so that the steam fire pump, located in the same building, can be started up at any time in case of fire. The other boiler is kept in reserve. The steam fire pump is connected with several hydrants placed at convenient points around the building, and the water supply is from a large brick reservoir of 100,000 gallons capacity built in the ground between the boiler house and the main building. It was the aim of the commissioners to have this a first class job, and the county receive some compensation for the money expended.

The increase of the small amount in the cost of support is due from the fact of the decrease in number of inmates, caused by the burning of the Asylum, while the material cost of running the Almshouse is about the same.

The number of weeks support furnished is taken from the number of weeks at the farm together with the weeks support

by the St. Mary's Orphanage and the Dover Children's Home, all of which number of children are charged to the farm.

Report of Superintendent.

(From Jan. 1st, 1893, to Jan. 1st, 1894.)

TO THE COUNTY COMMISSIONERS.

GENTLEMEN:—In submitting my report, I wish to thank you for the uniform kindness and wise counsel shown me at all times, and for your willingness to provide all things needed for the institution. Your improvements in water supply, new steam plant, plumbing and sewerage can but result in better protection against fire, more even heat, comfort to all, and a better sanitary condition of the institution.

I also tender my sincere thanks to the County Physician, Dr. A. P. Richmond, for earnest work and valuable assistance rendered; and to Rev. Mr. Beard, whose kind and cheering words have been so often spoken in chapel and sick room.

Those hired to assist at the farm have, I believe, labored willingly and faithfully, for the best interests of all concerned, and I take pleasure in publicly expressing my appreciation of the manner in which the several duties have been discharged.

Respectfully Submitted

E. A. WILLAND, Superintendent.

Report of Chaplain.

The past year I have performed my usual routine duties as Chaplain of the County Farm, holding services on Sunday afternoon, visiting the sick and infirm in their rooms, furnishing reading matter for such as desired it, burying the Protestant dead. I find that the interest in our services increases as the years go on, the inmates looking forward with pleasure to the visit of the chaplain, and expressing disappointment when the service is omitted.

Dec. 29th, the group from young ladies of the various churches in Dover provided the annual Christmas tree. The occasion was much enjoyed by all. This is the twelfth in yearly succession.

I find cordial and interested assistance in the religious work in Mr. and Mrs. Willand, and am grateful to them for their friendly and christian interest.

REMARKS ON SHERIFF'S REPORT.

In regard to the reward of \$50 offered by the sheriff for the apprehension of Fred Davis, which the sheriff asked the County to pay, the commissioners take the ground that it belongs to the sheriff or jailor under whose care he was when allowed to escape, and therefore refused to pay it, submitting the matter to Chief Justice Doe for instruction, whose decision upon the matter may be found on file at the office of Clerk of Court.

Physician's Report.

TO THE COMMISSIONERS OF STRAFFORD COUNTY.

Gentlemen: Submitting my first report as County Physician, covering the period from April, 1893, to January, 1894, I wish to call your attention to several important conditions upon the fulfilment of which depends much of the health and comfort of those under our care. Foremost among these we place the sanitary conditions of the buildings. Great praise is due you in spending so much of your time, care and money in arranging the present complete heating, ventilating and drainage system. The marked improvement is everywhere noted, but especially in the water closets, which were very foul. And the uniform temperature throughout the building cannot fail to add comfort to all the inmates. We consider the matter of ventilation as nearly perfect as could be attained in such an institution. Under the efficient oversight of the Matron, Mrs. Willand, cleanliness is a marked feature.

The inmates are compelled to bathe frequently, their clothing is changed often, and the rooms and halls, which have been newly painted and whitewashed, are kept sweet and clean by frequent scrubbing.

Next we must speak of the food. The generally healthy condition of the inmates, showing this to be at all times plentiful and nourishing.

The water supply is abundant and good. All this cannot fail to be productive of much good health. However, we find the usual number of chronic cases always found in an in-

stitution of this kind; among which are, Phthisis, Rheumatism, Venereal, Heart and Skin diseases. Add to this a large number of aged and infirm, and it will include the most of the work we have to do. There has been the usual amount of minor surgery. Obstetrics has provided but one case a healthy, living child, the mother arriving at the farm only a few weeks before confinement. At the opening of the school year all the children were vaccinated. During the prevailing epidemic of lung trouble, a large number of the inmates were affected. We had seventeen sick in bed at one time. I am very grateful to Mr. and Mrs. Willand, Superintendent and Matron of the Institution, for the great assistance rendered me in the discharge of my duties. In those cases calling for especial care and sympathy, they could not have evinced more interest had they been members of their own family. And it seems to me, that in this (so called) uncharitable world, such deeds of real charity as they are constantly performing, ought to be made known to the public.

I must also thank those inmates who have helped me in the work of distributing medicine to the sick. The material assistance from you as Commissioners has been daily appreciated: while the many favors and hearty interest in my work among the poor in the City, at the Farm and at the Jail, has been most helpful and encouraging.

Very Respectfully,

ALLEN P. RICHMOND, M. D.
